Dear Examiner Riley:

Pursuant to your request, enclosed please find a *substitute* diskette with the sequence listing in PatentIn format. The sequence listing does not include matter which goes beyond the disclosure in the above-referenced application as filed. Furthermore, the information recorded in computer readable form is identical to the written sequence listing as submitted on March 1, 2002 (a copy of which is enclosed).

If you have any questions regarding this or need anything further, please do not hesitate to contact me directly at 608-218-6900.

Very truly yours,
